

Create Your Own Cohort and Invite Students (students pay individually)

[Go to review.mathmedic.com](https://www.mathmedic.com). Choose AP Statistics, AP Precalculus, or AP Calculus.

Step 1: Click "Create Cohort"

Take with your own cohort

If you would like your students to pay individually, **this is the correct option for you**. As the creator of the cohort (moderator), you will join for free and then invite your students to your cohort. You will then be able to assign due dates, monitor student progress, and use the discussion feature.

\$29/member

Step 2: Get logged in. This account is NOT the same as the one for the Math Medic website so if you are new to the review course, you will need to create an account first.

Step 3: Give your cohort a name. Leave at "0 members". Click "Get Path".

Step 4: Click "Get Started".

Step 5: Click the "Share" button

Step 6: Invite students to "Learn" using one of the methods provided.
